Flange Housing Unit CSPF 205

BMI India has now developed the 3-hole flange housing PF205 to fit along with CS 205 2RS.

The set components are co-ordinated with each other so that they can be **mounted directly**. The set is suitable for **high radial loads** and **high speeds**. With its sheet steel housing it is suitable for **space saving installations**.

Features & Benefits

A. Flange Housing

1. Sheet Steel housing for space saving installations.
2. Low-weight
3. Increased Corrosion resistance due to galvanised sheet steel

B. Radial Insert Ball Bearing

1. Static misalignment upto 5° due to spherical outer race of outer ring.
2. Contact lip seal for high sealing effect.
3. Lubricated for life under normal conditions.
