BMI Tight Grip Mounted Ball

An easy-on/easy-off solution from BMI's engineers for damage-free shafting, reduced vibration, and greater cost savings.

CURRENT SIZE RANGE **P2B GT**
(1¼ till 2 inch shaft sizes)

The new BMI Grip Tight mounted bearing features a unique adapter-mount design that is specifically developed to withstand axial forces that are generated during mounting or dismounting. The adapter provides superior holding power, as well as suppresses fretting corrosion and vibration.

For any size range not mentioned above feel free to contact our sales team on sales@bmibearings.com

Its triple lip seal design provides better protection and longer life.
