BEARING MANUFACTURING INDIA

01 BMI Mounted Bearings Spherical Series

Ready for use Out-of-Box

Bearing cavity is 33% factory-filled with Shell Alvania #2 grease. Has 1/8" NPT grease fitting and also fits automatic grease dispensers.

Self-Aligning

Internally self-aligns to accommodate changes in shaft and machinery alignment for maximum bearing life.

Easy to Reorder

Removable metal tag makes reordering easy.

Shaft Expansion

Available in Non-expansion (fixed) and Expansion (floating)

Double-Lip Seals

Extra protection against contamination, but still allow high speed operation.

Solid Base Block Advantages :

- Save money and reduce cost
- Longer life
- Reduce downtime
- Maximize and improve productivity
- Improve reliability of your operations

Drop-In Interchanges with:

Dodge S2000
Browning SPB1000
Linkbelt PB22400
Rex ZA2200
SKF SYR

Locking Collar

Use of mild steel collar ensures precision threads, maximizing setscrew grip.

Sturdy Housing

A one-piece cast iron housing has strength to handle rough applications.
